

Artemide at Terrazza Cinematografo

This year, Artemide was once again a key player at the **81st Venice International Film Festival**, collaborating with **Atlas Concorde** and **Atlas Plan** to create a unique and refined space at the historic Terrace of the Hotel Excelsior. From August 28th to September 7th, our lighting illuminated the “Cinematographer’s Terrace by Atlas Concorde,” an exclusive environment that hosted several special guests for meetings, events, and moments of conviviality.

Our lighting solutions were an integral part of this space, designed to offer an experience of style and well-being. With the support of Atlas Plan's refined surfaces, Living Divani's furnishings, and the elegance of Modulnova's kitchen, the Excelsior Terrace became a true showcase of contemporary design.
